Unclassified // FOUO
96 Hour STAC Report

- Next Report: 05/29/18

SITUATION SUMMARY

Cal OES Activation Status

State Operations Center	Inland Region EOC	Coastal Region EOC	Southern Region EOC
Normal Operations	Normal Operations	Normal Operations	Normal Operations

Cal OES COASTAL REGION

- Nothing significant to report.

Cal OES INLAND REGION

- Nothing significant to report.

Cal OES SOUTHERN REGION

Train Derailment, Bloomington, San Bernardino County, SPILL: 18-3397

On 05/26/18 at 0659 hours, the California State Warning Center (CSWC) received a report from Union Pacific Railroad (UPRR) that one freight railcar derailed in the upright position due to the railcar rolling over a derailing device.

- There were no hazardous materials released and no injuries reported.
- CSWC personnel performed notifications per SOP.

Virulent Newcastle Disease (vND) in Chickens, Los Angeles and San Bernardino Counties

The California Department of Food and Agriculture (CDFA) has detected virulent Newcastle Disease (vND) in chickens in Los Angeles and San Bernardino Counties.

- CDFA and the U.S. Department of Agriculture (USDA) are scaling up their response to this incident, as more cases have been detected.
- CDFA has confirmed that there are no commercial premises currently involved.
- CDFA has confirmed there is no public health risk due to this virus.
- Cal OES Southern Region is assisting CDFA in identifying a facility to expand operations, as the current Incident Command Post (ICP) is too small for the current number of responders and supplies.

Activations

- San Bernardino Operational Area (OA) Emergency Operations Center (EOC) is activated to Level 3 (lowest level) and will monitor the incident through the holiday weekend.

Deployment

- 1 Cal OES Southern Region Senior Emergency Services Coordinator (Sr. ESC) has deployed to the CDFA/USDA ICP as an Agency Representative (AREP), with an operational period of 0700-1900 hours.
- 1 Cal OES Logistics Section Chief has deployed to the CDFA/USDA ICP, with an operational period of 0700-1900 hours.

911 Outages/Remote/Community Isolations:

- None reported.

Service Interruptions:

- None reported.

WEATHER OF CONCERN

Weather of Concern

- Another dry low pressure system will move through the area today, leading to breezy or even locally windy conditions across far southeast California. One of the windiest locations will be southwest Imperial County mainly west of El Centro. With dry air and very dry fuels in place, the gusty winds will result in dangerous fire weather conditions.
- Hazardous driving conditions due to strong cross winds for portions of Southwest California through early morning Sunday.

WEATHER SYNOPSIS BY REGION

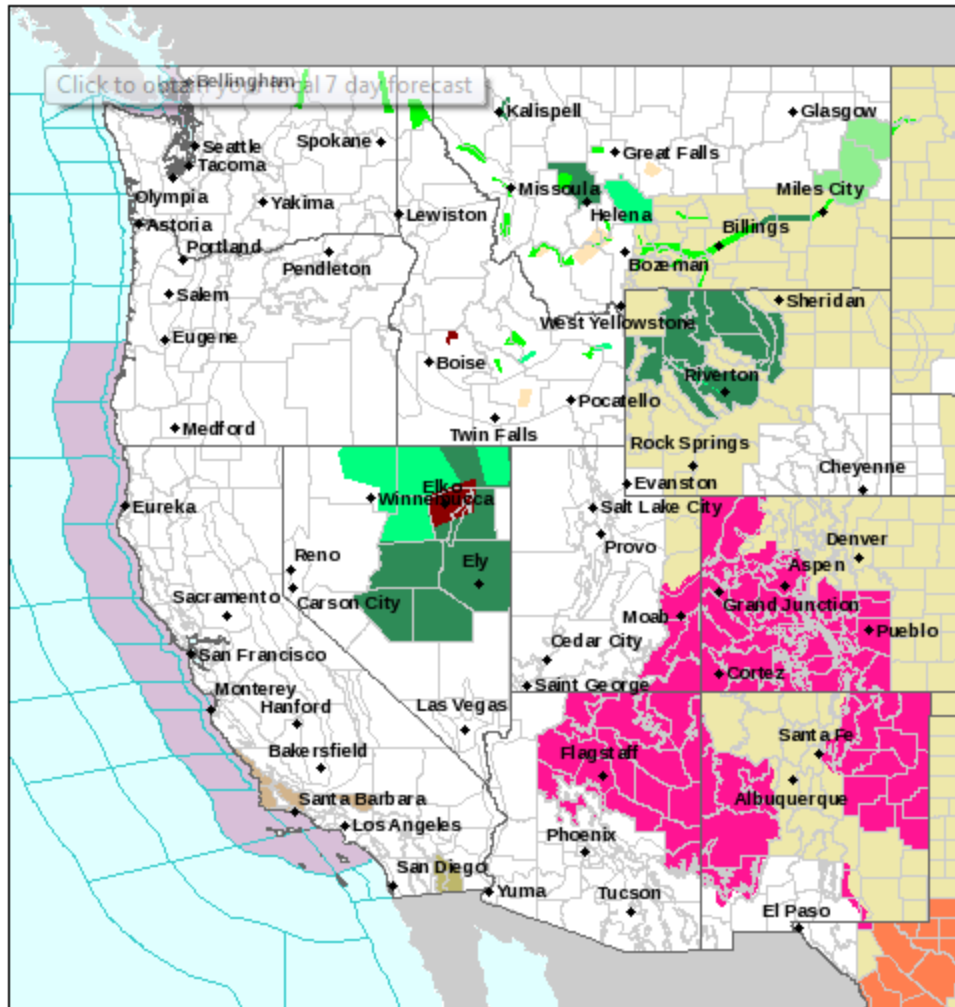

NORTHERN CALIFORNIA

Warming to well above normal for early next week. Afternoon and evening thunderstorms possible mainly over higher terrain starting on Tuesday. Another cool down is expected for middle to late next week. Northerly breezes will keep coastal areas cool. A few showers and thunderstorms will be possible in eastern Trinity and northeast Mendocino counties Wednesday and Thursday.

SOUTHERN CALIFORNIA

Gusty winds will affect portions of the region through tonight in association with the passage of an upper level low pressure center. There will be areas of night through morning clouds and fog west of the mountains tonight through next week. A warming trend is expected Sunday through Tuesday, with high temperatures rising to above normal levels. A cooling trend will occur Wednesday through Friday.
